SUMMARY

Tax technology consultant with 3+ years building the data infrastructure behind indirect tax compliance — ETL pipelines, tax engine integrations (Vertex, ONESOURCE), and automated reporting for enterprise clients. Experienced in translating heterogeneous ERP data into standardized, auditable monthly processes.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, SQL, HTML/CSS, Java, R
Frameworks & Libraries: Astro, Next.js, React, Pandas, Node.js
Cloud & Platforms: Amazon Web Services (AWS), Google Cloud Platform, Microsoft Azure, DigitalOcean
Tools: Alteryx, Microsoft Power BI, Figma, Tableau, Access, Excel, Power Automate, Visio, SAP S/4, Linux

EXPERIENCE

Ernst & Young Aug 2025 – Present
Tax Technology Consultant, Senior New York, NY (Hybrid)

- Engineered ETL pipelines using Python, SQL, and Alteryx to ingest and transform large client datasets, feeding automated reporting workflows and interactive Power BI dashboards that replaced manual processes.
- Deployed an AI-driven invoice agent that identifies eligible invoices from client AP data, triggers automated retrieval through a Power Automate bot, and applies LLM-based classification to assign commodity codes and determine process eligibility based on line-item descriptions, eliminating hours of manual effort per month.
- Integrated client Vertex and ONESOURCE tax engine instances with EY's platform via API connectivity, automating rate and taxability determination across millions of transactions per month.
- Embedded multi-stage approval workflows and control-total validation into monthly processes, giving reviewers step-level approval checkpoints and a defensible audit trail.

Ernst & Young Jul 2023 – Aug 2025
Tax Technology Consultant, Staff New York, NY (Hybrid)

- Led product definition for a platform integration between two internal systems, authoring user stories and detailed requirements, building UI mockups in Figma, and executing business testing.
- Owned onboarding and configuration of 80+ clients onto an internal SaaS platform, delivering tailored solutions that streamlined day-to-day workflows for both client and engagement teams.
- Authored comprehensive technical documentation — including business and data requirements, process flow diagrams, and end-user guides — enabling smooth adoption of new tools across distributed teams.

EDUCATION

Kelley School of Business, Indiana University May 2023
M.S. in Information Systems GPA: 3.64 / 4.00

- MSIS Ambassador: Represented the program at recruiting events, career fairs, and case competitions.

Luddy School of Informatics, Indiana University Aug 2022
B.S. in Informatics (Business Cognate, Spanish Minor) GPA: 3.75 / 4.00

- Dean's List: All semesters attended.
- IU Dance Marathon PR Chair: Led social media and fundraising strategy, helping the committee raise a record $74,000+ for Riley Hospital for Children.
